Walt Disney sosteneva che «i narratori ristabiliscono l'ordine con l'immaginazione». Lo stesso fa l'architetto quando progetta un ambiente mettendo l'ordine al servizio della sua immaginazione, del suo fiuto creativo. È da questo input progettuale che nasce la linea About Office dedicata all'organizzazione dell'ufficio. Stile e funzionalità bilanciano a vicenda il loro peso concettuale: esigenze pratiche da un lato, bisogno di bellezza dall'altro. Tante soluzioni per organizzare e ottimizzare la zona archiviazione, e un design in continuità stilistica, cromatica e materica con gli altri arredi della collezione.

Walt Disney once said that “storytellers restore order with imagination”. The same could be said for architects because when they sit down at the drawing board, they use their imagination and creative flair to bring order to an environment. This is the design approach that gives rise to the About Office range dedicated to well-organised offices. Style and function meet in the middle of a conceptual continuum: practical requirements on one end of the scale, a desire for beauty on the other. A series of organisational solutions and ways to streamline storage, and an aesthetic that pleases the eye and melds with the rest of the collection in terms of lines, colours and textures.

Walt Disney affirmait que « les conteurs restaurent l'ordre par l'imagination ». L'architecte fait de même lorsqu'il conçoit un environnement, mettant l'ordre au service de son imagination, de son instinct créatif. C'est à partir de cette vision de la conception qu'est née la ligne About Office dédiée à l'organisation du bureau. Le style et la fonctionnalité s'équilibrent en termes de poids conceptuel : les besoins pratiques d'une part, le besoin esthétique de l'autre. De nombreuses solutions pour organiser et optimiser les espaces d'archivage, et un design qui s'inscrit dans une continuité stylistique, chromatique et matérielle avec les autres meubles de la collection.
